Description

Antibacterial cover for mobile device camera, designed to protect privacy. With 3M reusable adhesive and presented in an individual bag. Products with antibacterial treatments are able to drastically reduce the bacterial levels present on the surfaces of the materials, thanks to the addition of permanent static microbial agents, with high effectiveness in inhibiting and preventing bacterial contamination. Item according to the ISO 22196 standard, which determines the antibacterial activity in plastic materials and non-porous surfaces. This allows us to know the effectiveness of microbial inhibition that additives have on treated objects by means of a quantitave evaluation.
