Description

External auxiliary battery made from ABS with a rubber finish and a capacity of 5,000 mAh. With internal LED light and specially designed outer coating for laser marking, with a motion sensor to turn on the LED light (automatically turning off after 30 seconds). Includes dual USB output for simultaneous charging of 2 devices and Type C input/output connection and charge status indicator. The capacities shown in all our external auxiliary batteries are real, incorporating all grade A and not recycled batteries, with a lifespan of at least 500 charge cycles and according to CE regulations. Additionally, they are manufactured in accordance with RoHS standards and meet the following safety requirements: Power bank overload protection system. Complete discharge protection system that provides greater durability for the power bank. Locking system to prevent short circuits. Constant charge transfer system, according to the capacity of the destination device. 5000 mAh. 2 USB Outputs. Type C Output and Input.
