Description

Travel car made of PC, with a sturdy, structured, rigid housing in black. Designed to provide protection, capacity and comfort on the go, it features a main closure with metal pulls and an integrated TSA lock for increased security during travel. It features an extendable trolley system with an aluminum structure and three adjustable height positions that adapt to different usage needs. It has four double 360° dials that allow for a smooth ride and excellent maneuverability in any direction. The interior is divided into two independent compartments. One of them has crossed elastic straps with buckle closure to close luggage, while the other has compartments with zipper and mesh pocket for better organization of clothes, accessories and documents. In addition, there is an additional central pocket for quick access to items. It completes its design with an upper carrying handle and the front metal plate. A premium product that combines design and careful presentation to convey an image and an unmistakable value.
